PROFESSIONAL SUMMARY

I am a postgraduate student in Data Science with a strong academic background in computer science and a keen interest in data-driven problem solving. I possess solid skills in Python, SQL, machine learning, and Laravel development, along with strong analytical thinking and problem-solving abilities. I am a quick learner, adaptable, and enjoy working collaboratively in team environments.

PROJECTS

Smart Crop Health Monitoring System using Deep Learning (CNN + Agriculture)

- Built CNN model (MobileNetV2) and Random Forest model for classification tasks
- Implemented Flask web application with database integration and dashboard visualization
- Achieved high prediction accuracy (98%) for real-time agricultural analysis

Electric Vehicle Range Prediction using Machine Learning (Random Forest, XGBoost, MAE)

- Developed regression models using Random Forest and XGBoost to predict EV range
- Conducted feature engineering and data visualization
- Achieved MAE of 0.567 after model optimization

Fine-Tuning T5 Model for Automated Question Generation (NLP + Transformers)

- Fine-tuned the T5 Transformer model to generate context-aware questions.
- Prepared and processed custom Q&A datasets.
- Applied NLP techniques for educational content automation.

EDUCATIONAL QUALIFICATIONS

- | | |
|---|-----------------|
| <ul style="list-style-type: none">M.Sc. Data Science – Bharathiar University
Department of Computer Science
Aggregate: 80% (upto 3rd sem) | 2024 – Pursuing |
| <ul style="list-style-type: none">B.Sc. Computer Science – K.G. College of Arts and Science
Department of Computer Science
Aggregate: 90% | 2021 – 2024 |
| <ul style="list-style-type: none">Higher Secondary (12th) – P.S.G. Sarvajana Hr. Sec. School
Computer Science with Mathematics
Aggregate: 86% | 2020 – 2021 |

RESEARCH & PUBLICATIONS

- Published and presented research paper on Transformer-based Automated Question Generation at ICAC 2026.
- Applied T5 model fine-tuning using NLP techniques.
- Focused on improving AI-driven educational content generation

TECHNICAL SKILLS

- Programming: Python, SQL
- Data Analysis: Pandas, NumPy, Excel, EDA
- Machine Learning: Regression, Classification, Random Forest,
- Visualization: Matplotlib, Seaborn, Looker Studio
- Tools: Jupyter Notebook, Git, GitHub

LANGUAGES

- Tamil (Read/Write/Speak)
- English(Read/Write/Speak)

CERTIFICATIONS & ACHIEVEMENTS

- Certified in Big Data Computing – NPTEL (2024)
- Certified in Python for Data Science – NPTEL (2023)
- Completed multiple Coursera certifications.
- Won 2nd Prize in Throwball – K.G. College of Arts and Science (2024)
